Technology at LHS

VISION STATEMENT

Promote a personalized, technology-supported learning environment that encourages daily use of technology to foster connectivity, collaboration, creativity, digital citizenship, and student ownership of learning.

Student Guidelines

1. Personal devices must be in silent mode

2. Non-instructional use of devices during instructional time is prohibited

3. Non-audible, non-instructional use is permitted in common areas (i.e. Media; Cafeteria; Hallways) during non-instructional times

4. Individuals assume full responsibility for their own devices

5. Consent for recording (visual and/or audio) must be obtained from participants and staff prior to capturing the recording

6. Adhere and comply with all stated and applicable CCPS policies and guidelines

7. Use your device to collaborate, create, and support your learning

Connect
Use technology to connect outside the walls of the school to experts, information, and the global classroom

Collaborate
Use technology to collaborate with teachers and classmates

Create
Use technology to create new ways of communicating information and expressing point-of-view

Digital Citizenship
Use technology effectively, efficiently, and ethically. Your digital footprint is yours forever...cultivate and protect it

Ownership of Learning
Use technology to take control of your own learning by accessing information, clarifying ideas, and seeking answers to unanswered questions
